WANTS CITIZENS TO AID

Also Asks That Persons Abstain From Usual Vocations As Far As Practicable.

Registration day, Tuesday, June 5, has been designated a holiday in Maryville, according to the proclamation issued by Mayor A. S. Robey this morning. Governor Gardner made the state proclamation last week, following a similar proclamation by the president. The mayor urges that every citizen do his part in aiding the work of registration and in seeing that each man is registered. He also asks that every man abstain from his usual vocation in life as far as practicable.

There will be no regular celebration of the day and the work of registration will be carried on without demonstrations of any sort.

The members of the registration committee for the county will meet at Shinabargar, Blagg and Ellison's office at 7:30 o'clock tonight for the purpose of receiving instructions in the duties of registration.

TAX LEVY TO BE 9 1-2 MILLS

Mayor Robey Estimates That This Much Will be Needed for City Fund This Year.

The tax levies will be made at the meeting of the city council to be held this evening. According to the estimates prepared by Mayor Robey, the levy will be 9½ mills this year as compared to 10 mills last year. There will be four mills for the general fund, one mill for the library and 2½ mills for the water bond interest fund. These are the same as last year. For the principal of the water bond issue, Mayor Robey thinks 2 mills will be necessary. Last year it was 1½ mills. As the paving bonds were paid off during the past year, that levy of one mill will not be made.

A payment of $12,000 on the water bonds will be paid off by the city in December. This is the first payment on these bonds.

It is probable that an ordinance relative to lead service pipes from the water main to the curb line will be discussed.

TWO NORMAL HOLIDAYS

No sessions of the State Normal school will be held Monday and Tuesday. On Tuesday afternoon the women of the Normal will meet with Miss Hettie Anthony for the purpose of recruiting the classes in Red Cross work that have been in action during the Spring term. THE AUTO LICENSES

COUNTY OFFICIALS WILL ARREST ALL WITHOUT THEM.

CHAUFFEURS INCLUDED

Must Have Licenses and Badges in Order to Operate According to the State Law.

Instructions have been received by the Prosecuting Attorney and the Sheriff, to see that all automobiles are properly tagged with the 1917 license. Also, to observe that all chauffeurs are wearing their license badge. And in case of any violations, to arrest the guilty parties.

In accordance with these directions, the officers are going to make an investigation, especially among those who are engaged in operating cars for hire, to see that they are licensed chauffeurs, and that they are observing that part of the law which requires them to wear their badge pinned upon their clothing in a conspicuous place, at all times when the party is operating his automobile upon the public highway.

A chauffeur is defined to be, "a person operating a motor vehicle as an employee, or for hire." If a man owns a car, and is running it for hire, he is a chauffeur and should have a license and wear his badge as above set out.

This is one of our laws and all law abiding citizens should obey it. Should any one be found violating the motor vehicle laws, arrests are sure to follow, and mere excuses of delay in getting a license, or forgetting to pin a chauffeur badge on, will not go. If it did, what good is the law? The officers say a careful enforcement is on.

RESULTS OF TORNADO

Special to The Democrat-Forum.

St. Louis, June 1. — With seventy-six reported dead and 150 injured, property damage amounting to millions, Southeastern Missouri today faces hunger and disease as a result of a tornado which swept through thirty towns. Only haphazard reports of the stricken districts trickle in. The re-establishment of communication, it is believed, will greatly increase the story of death, injury and destruction.

Fined for Speeding.

George W. Eades was arrested on a charge of speeding by Night Policeman Eph Tilton last night. He pleaded guilty and was fined $11.10.

FROM FOUR FRONTS

FIGHTING REPORTED ON ALL THE FIELDS BY WAR OFFICE TODAY.

RUSSIANS BEGIN BATTLE

In Albania, the Italians Have Undertaken New Offensive— British and French Extend Lines.

Special to The Democrat-Forum.

London, June 1.—For the first time in many months fighting was reported on nearly all of the battle fronts today. The keenest interest was directed toward the Eastern front, where the Russians opened bombardment. In Albania the Italians have undertaken a new offensive. Both the British and the French have extended their lines on the Western front. French attacks were commenced against the Austrians on the Italian fronts.

Russia Takes A Hand.

Petrograd, June 1.—The Russian artillery today began a vigorous bombardment of the German positions on the Riga front ending with virtual armistice with preparations for heavy assaults. Great damage was reported done in aerial activity and by bombardments. Increased activity was reported within the lines of the enemy.

French Capture German Post.

Paris, June 1.—The German post south of Chivereaux was captured by the French last night and a number of prisoners were taken. Another engagement developed in Champagne with the Germans trying to capture higher ground in the Casque sector. The assault was repulsed after bitter fighting.

BRITISH OFFICIALS CHANGE

Resignation of Lord Cowdry Will Be Followed by Other Retirements From Office.

London, June 1.—Important changes are taking place in the personnel of the British government. Lord Cowdray has resigned as chairman of the war board. The Daily News says that Christopher Addison will probably resign as minister of munitions. The post of food controller is now vacant, Lord Davenport having resigned because of ill health. It is reported that the portfolio of the minister of Munitions will go to Winston Churchill, former first Lord of the Admiralty.

MICHELIN

Notice the curve in which Michelin Tubes Naturally Hang

INSTEAD of being simply a piece of straight tubing cemented at the ends, the Michelin Tube is formed on a circular mandrel in the shape of the inside of the casing. Thus when inflated it is neither stretched on its outer side nor compressed into destructive wrinkles next to the rim. This perfect fit gives the Michelin Tube greater durability and practically eliminates danger of pinching the tube.

PROCLAIMS HOLIDAY

(Continued from page 1.)

tional Registration Day for military service, and in conformity to the order of Woodrow Wilson, President of the United States, and a proclamation of Frederick D. Gardner, governor of Missouri, I hereby proclaim Tuesday, June 5, 1917, as a holiday in the city of Maryville, Missouri, and call upon all city officials and citizens to assist in every way possible the board of registration, that the work may be conducted in a business-like manner. I respectfully urge that each citizen regard it as his public duty to see that every eligible man is registered.

I further request that so far as practicable every citizen abstain from his usual vocation of life on that day, that we may think and assist in such manner as will meet this man's problem in a man's way.

I have hereunto set my hand this first day of June, 1917.

FIND SOME ODD RELICS

S. S. Webb of Burlington Junction Brings Part of Pre-historic Animal's Tooth to Town.

S. S. Webb of Burlington Junction, was exhibiting at the court house yesterday a part of what is believed to be a fossil which was found by Fred Fleming on a river bank, northwest of Burlington Junction, last week. There was much speculation as to what part of the ancient animal's anatomy the pieces of petrified substance belonged, and finally it was decided that it was part of a pre-historic animal's tooth. It will be sent to the geologists at the University of Missouri in order to see if they can name the animal of which it is a part.

Mr. Webb also had a piece of hollowed out rock into which was fitted a smooth ball. This was found on the Webb farm near Burlington Junction by Melvin Webb, who turned it up with a plow last week. The question of whether this relic was a small bowl used by the Indians for pulverizing grain or whether it was the ball and socket joint of a mastodon occupied the habitues of the court house. This was also left undecided, various opinions on the subject forming the basis for a lively discussion.

TO AFFECT S.S. CONVENTION

Movement to Put A Stop to All Conventions During War Is Begun.

If the movement on foot to put a stop to all conventions during the war, gets any support from the people of the country it is possible that the state Sunday School convention which is to bring several hundred persons to Maryville next November will be called off.

The railroads of the country in conjunction with the National Council of Defense is behind this movement in order to conserve rolling stock and fuel and to provide more adequate transportations. The Commercial Club will stand against this movement on the ground that business and constructive social activities should go on as usual.

DIDN'T GET BABY.

Springfield Banker Travels in Vain Through Hills, But No Results.

Special to The Democrat-Forum.

Springfield, June 1.—After seven hours last night of driving alone through the hills with $6,000 cash, J. Holland Keet, the banker, in the vain hope of trading money for his 14-months-old baby, recently abducted, came home today without the baby.

While no statement was made, it is believed today that his own friends spoiled the exchange. Ten friends fearing for his safety followed in motor cars. It was learned today that the failure to observe the provisions of the note would cost the father $10,000 if the child was recovered. Another trip will be made tonight.

The W. R. C. will meet at the hall at 2:30 o'clock tomorrow afternoon.

YOUNG ORPHAN GIRL

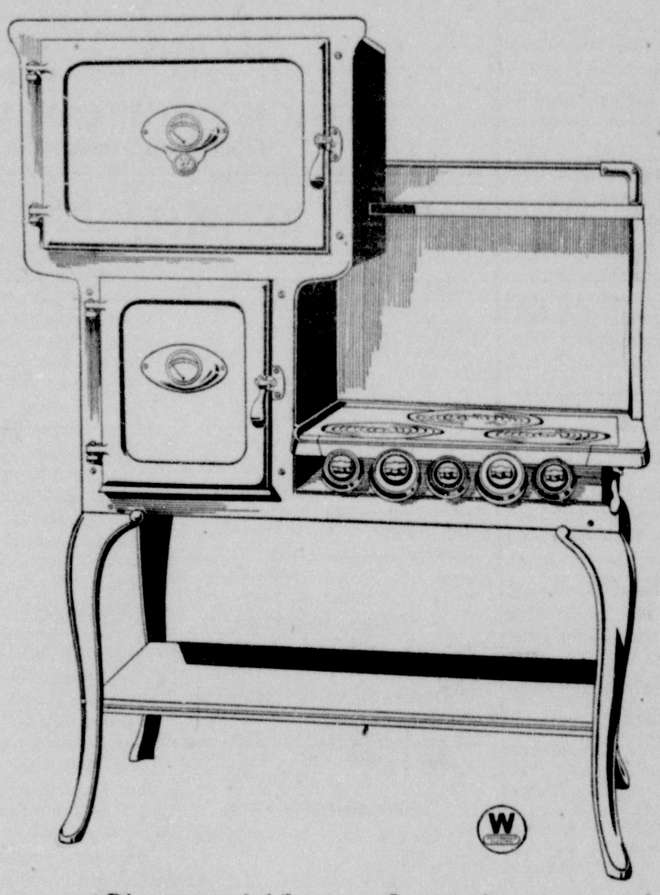
How She Was Cured. Had Headaches, Dizzy Spells, Awful Pains, Could Not Work.

Pittsburgh, Pa.—"I am an orphan girl, and when only seventeen years old had to support myself, but I would have such sick spells every month that I would have to stay at home from work, and I could not afford to do it. I also had headaches, dizzy spells and a pain in my side. My sister told me how much Lydia E. Pinkham's Vegetable Compound had helped her, so I began taking it. The result is I am now in good health and never lose a day from my work, and you may publish my letter to show other girls the good Lydia E. Pinkham's Vegetable Compound will do."—Miss MARIE SCHMELTZ, 34 Gardner St., Troy Hill, N. S., Pittsburgh, Pa.

This good old root and herb remedy has proved unequalled for periodical suffering of young women; it contains what is needed to restore healthful conditions.

Write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for free advice if you need it.

I Have An Invisible Servant, Who Saves Me Time and Money



"Dinner at six' I say as I put the meat and vegetables in the oven of my Westinghouse Automatic Electric Range. When I get home at six, everything's just right to serve, no matter if I've been gone all day.

"The time-clock turns on the electric current at the hour I set. The thermometer turns it off at the temperature I decide upon. Then the range acts as a fireless cooker, using no more electricity, but cooking my meal just as I want it.

"Since I have made electricity my invisible servant my afternoons are free and I know exactly when my food will be cooked and how. And it saves food.

The perfection of the Westinghouse Automatic Electric Range revolutionizes cooking. It is a full size range, large enough for a whole family, yet economical even when cooking for two.

Results once attained can be exactly duplicated—no guess-work.

Cooking by wire is clean, because there is no soot or ashes. It is sanitary because every corner of a Westinghouse Range can be scoured. It is economical, because there is less shrinkage of food in the fireless cooker and none is spoiled.

The oven of a Westinghouse Range will cook a whole meal—meat and vegetables—at the same time, so full advantage can be taken of the fireless cooker feature. Put them in when you leave and they will be done when you return, without watching.

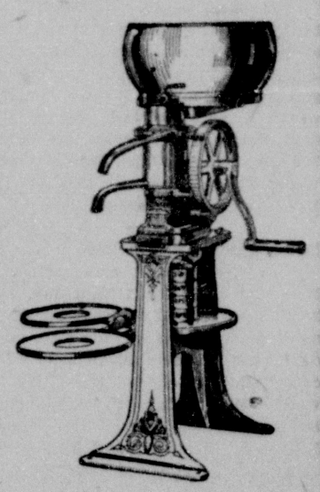
Get at The Source of Your "Skin Diseases"

Don't be misled by this term, for the appearance of pimples, boils or rashes indicate something more serious than a mere "breaking out" of the skin. These eruptions are, in reality, signals from nature that the blood is impoverished, debilitated and in need of help. Of course you can sometimes drive away the infected places by applying a salve or lotion, but unless you treat them through the medium of the blood, they will occur again and again.

S. S. S. has proven its wonderful building and tonic properties in thousands of cases arising from disorders of the blood. It washes the poisons from the system and aids the blood in its work of cleansing and invigorating the body organs, throwing off waste matter, and keeping the body in a normal, healthy condition.

Prove these facts for yourself by taking a bottle of S. S. S. and write to our Medical Department for information about your case. Swift Specific Co., 304 Swift Building, Atlanta, Ga.

Why the Anker-Holth Cream Separator Satisfies the User



Because—

the bowl is absolutely self-balancing. The user of this separator is never at expense to have the bowl balanced. It never needs re balancing.

Because—

the self-oiling features do away with the unsanitary and foul-smelling oil-cups. No oil can escape into either cream or milk in an Anker-Holth Separator.

Because—

every mechanical part is submitted to the most rigid tests and inspection before being assembled, and every separator is run many hours before it leaves the factory.

Because—

it is the only separator where the discs in the bowl point downward, making a perfect drainage of the cream. There can be no loss of cream by inter-mixing with the skimmed milk as exists with other makes of separators.

Bevo is a great favorite in the Army Canteens, where none but pure, soft drinks may be sold. After drill or march, you are sure to see a long line of hot and dusty-throated soldier boys making a bee line for Bevo. They know that there lies complete satisfaction, full refreshment and pure wholesomeness.

At home or abroad—at work or play—between meals or with meals, you will appreciate what we have done for you in making this triumph in soft drinks.

You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, in the navy, at canteens, at mobilization camps and other places where refreshing beverages are sold.

WANTS CITIZENS TO AID

Also Asks That Persons Abstain From Usual Vocations As Far As Practicable.

Registration day, Tuesday, June 5, has been designated a holiday in Maryville, according to the proclamation issued by Mayor A. S. Robey this morning. Governor Gardner made the state proclamation last week, following a similar proclamation by the president. The mayor urges that every citizen do his part in aiding the work of registration and in seeing that each man is registered. He also asks that every man abstain from his usual vocation in life as far as practicable.

There will be no regular celebration of the day and the work of registration will be carried on without demonstrations of any sort.

The members of the registration committee for the county will meet at Shinabargar, Blagg and Ellison's office at 7:30 o'clock tonight for the purpose of receiving instructions in the duties of registration.

TAX LEVY TO BE 9 1-2 MILLS

Mayor Robey Estimates That This Much Will be Needed for City Fund This Year.

The tax levies will be made at the meeting of the city council to be held this evening. According to the estimates prepared by Mayor Robey, the levy will be 9½ mills this year as compared to 10 mills last year. There will be four mills for the general fund, one mill for the library and 2½ mills for the water bond interest fund. These are the same as last year. For the principal of the water bond issue, Mayor Robey thinks 2 mills will be necessary. Last year it was 1½ mills. As the paving bonds were paid off during the past year, that levy of one mill will not be made.

A payment of $12,000 on the water bonds will be paid off by the city in December. This is the first payment on these bonds.

It is probable that an ordinance relative to lead service pipes from the water main to the curb line will be discussed.

THE AUTO LICENSES

COUNTY OFFICIALS WILL ARREST ALL WITHOUT THEM.

CHAUFFEURS INCLUDED

Must Have Licenses and Badges in Order to Operate According to the State Law.

Instructions have been received by the Prosecuting Attorney and the Sheriff, to see that all automobiles are properly tagged with the 1917 license. Also, to observe that all chauffeurs are wearing their license badge. And in case of any violations, to arrest the guilty parties.

In accordance with these directions, the officers are going to make an investigation, especially among those who are engaged in operating cars for hire, to see that they are licensed chauffeurs, and that they are observing that part of the law which requires them to wear their badge pinned upon their clothing in a conspicuous place, at all times when the party is operating his automobile upon the public highway.

A chauffeur is defined to be, "a person operating a motor vehicle as an employee, or for hire." If a man owns a car, and is running it for hire, he is a chauffeur and should have a license and wear his badge as above set out.

This is one of our laws and all law abiding citizens should obey it. Should any one be found violating the motor vehicle laws, arrests are sure to follow, and mere excuses of delay in getting a license, or forgetting to pin a chauffeur badge on, will not go. If it did, what good is the law? The officers say a careful enforcement is on.

RESULTS OF TORNADO

Special to The Democrat-Forum.

St. Louis, June 1. — With seventy-six reported dead and 150 injured, property damage amounting to millions, Southeastern Missouri today faces hunger and disease as a result of a tornado which swept through thirty towns. Only haphazard reports of the stricken districts trickle in. The re-establishment of communication, it is believed, will greatly increase the story of death, injury and destruction.

Fined for Speeding.

George W. Eades was arrested on a charge of speeding by Night Policeman Eph Tilton last night. He pleaded guilty and was fined $11.10.

RUSSIANS BEGIN BATTLE

In Albania, the Italians Have Undertaken New Offensive— British and French Extend Lines.

Special to The Democrat-Forum.

London, June 1.—For the first time in many months fighting was reported on nearly all of the battle fronts today. The keenest interest was directed toward the Eastern front, where the Russians opened bombardment. In Albania the Italians have undertaken a new offensive. Both the British and the French have extended their lines on the Western front. French attacks were commenced against the Austrians on the Italian fronts.

Russia Takes A Hand.

Petrograd, June 1.—The Russian artillery today began a vigorous bombardment of the German positions on the Riga front ending with virtual armistice with preparations for heavy assaults. Great damage was reported done in aerial activity and by bombardments. Increased activity was reported within the lines of the enemy.

French Capture German Post.

Paris, June 1.—The German post south of Chivereaux was captured by the French last night and a number of prisoners were taken. Another engagement developed in Champagne with the Germans trying to capture higher ground in the Casque sector. The assault was repulsed after bitter fighting.

BRITISH OFFICIALS CHANGE

Resignation of Lord Cowdry Will Be Followed by Other Retirements From Office.

MICHELIN

Notice the curve in which Michelin Tubes Naturally Hang

INSTEAD of being simply a piece of straight tubing cemented at the ends, the Michelin Tube is formed on a circular mandrel in the shape of the inside of the casing. Thus when inflated it is neither stretched on its outer side nor compressed into destructive wrinkles next to the rim. This perfect fit gives the Michelin Tube greater durability and practically eliminates danger of pinching the tube.

FIND SOME ODD RELICS

S. S. Webb of Burlington Junction Brings Part of Pre-historic Animal's Tooth to Town.

S. S. Webb of Burlington Junction, was exhibiting at the court house yesterday a part of what is believed to be a fossil which was found by Fred Fleming on a river bank, northwest of Burlington Junction, last week. There was much speculation as to what part of the ancient animal's anatomy the pieces of petrified substance belonged, and finally it was decided that it was part of a pre-historic animal's tooth. It will be sent to the geologists at the University of Missouri in order to see if they can name the animal of which it is a part.

Mr. Webb also had a piece of hollowed out rock into which was fitted a smooth ball. This was found on the Webb farm near Burlington Junction by Melvin Webb, who turned it up with a plow last week. The question of whether this relic was a small bowl used by the Indians for pulverizing grain or whether it was the ball and socket joint of a mastodon occupied the habitues of the court house. This was also left undecided, various opinions on the subject forming the basis for a lively discussion.

Movement to Put A Stop to All Conventions During War Is Begun.

If the movement on foot to put a stop to all conventions during the war, gets any support from the people of the country it is possible that the state Sunday School convention which is to bring several hundred persons to Maryville next November will be called off.

The railroads of the country in conjunction with the National Council of Defense is behind this movement in order to conserve rolling stock and fuel and to provide more adequate transportations. The Commercial Club will stand against this movement on the ground that business and constructive social activities should go on as usual.

DIDN'T GET BABY.

Springfield Banker Travels in Vain Through Hills, But No Results.

Special to The Democrat-Forum.

Springfield, June 1.—After seven hours last night of driving alone through the hills with $6,000 cash, J. Holland Keet, the banker, in the vain hope of trading money for his 14-months-old baby, recently abducted, came home today without the baby.

While no statement was made, it is believed today that his own friends spoiled the exchange. Ten friends fearing for his safety followed in motor cars. It was learned today that the failure to observe the provisions of the note would cost the father $10,000 if the child was recovered. Another trip will be made tonight.

The W. R. C. will meet at the hall at 2:30 o'clock tomorrow afternoon.

YOUNG ORPHAN GIRL

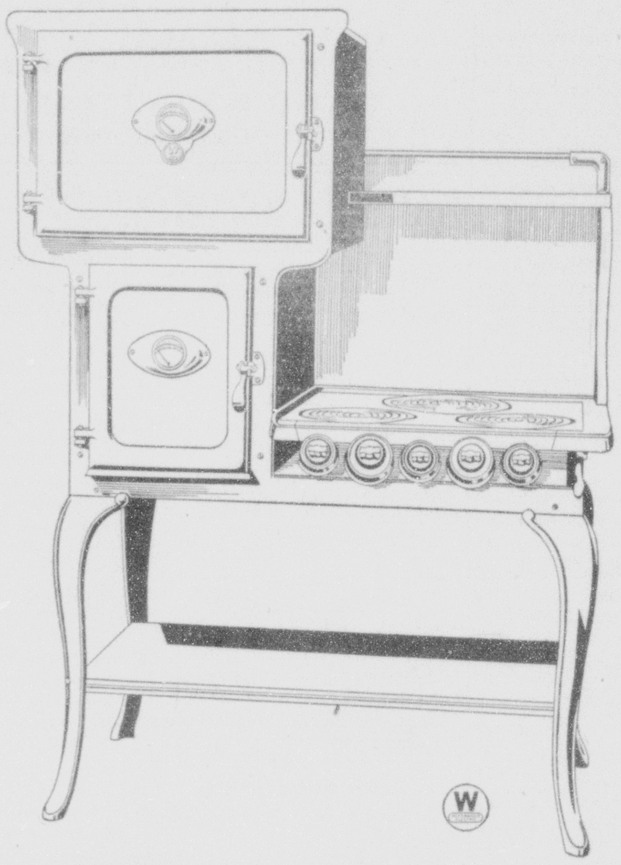
How She Was Cured. Had Headaches, Dizzy Spells, Awful Pains, Could Not Work.

Pittsburgh, Pa.—"I am an orphan girl, and when only seventeen years old had to support myself, but I would have such sick spells every month that I would have to stay at home from work, and I could not afford to do it. I also had headaches, dizzy spells and a pain in my side. My sister told me how much Lydia E. Pinkham's Vegetable Compound had helped her, so I began taking it. The result is I am now in good health and never lose a day from my work, and you may publish my letter to show other girls the good Lydia E. Pinkham's Vegetable Compound will do."—Miss MARIE SCHMELTZ, 34 Gardner St., Troy Hill, N. S., Pittsburgh, Pa.

This good old root and herb remedy has proved unequalled for periodical suffering of young women; it contains what is needed to restore healthful conditions.

Write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for free advice if you need it.

I Have An Invisible Servant, Who Saves Me Time and Money



"Dinner at six' I say as I put the meat and vegetables in the oven of my Westinghouse Automatic Electric Range. When I get home at six, everything's just right to serve, no matter if I've been gone all day.

"The time-clock turns on the electric current at the hour I set. The thermometer turns it off at the temperature I decide upon. Then the range acts as a fireless cooker, using no more electricity, but cooking my meal just as I want it.

"Since I have made electricity my invisible servant my afternoons are free and I know exactly when my food will be cooked and how. And it saves food.

The perfection of the Westinghouse Automatic Electric Range revolutionizes cooking. It is a full size range, large enough for a whole family, yet economical even when cooking for two.

Results once attained can be exactly duplicated—no guess-work.

Cooking by wire is clean, because there is no soot or ashes. It is sanitary because every corner of a Westinghouse Range can be scoured. It is economical, because there is less shrinkage of food in the fireless cooker and none is spoiled.

The oven of a Westinghouse Range will cook a whole meat—meat and vegetables—at the same time, so full advantage can be taken of the fireless cooker feature. Put them in when you leave and they will be done when you return, without watching.

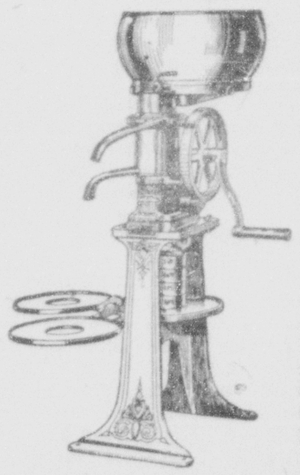
Get at The Source of Your "Skin Diseases"

Don't be misled by this term, for the appearance of pimples, boils or rashes indicate something more serious than a mere "breaking out" of the skin. These eruptions are, in reality, signals from nature that the blood is impoverished, debilitated and in need of help. Of course you can sometimes drive away the infected places by applying a salve or lotion, but unless you treat them through the medium of the blood, they will occur again and again.

S. S. S. has proven its wonderful building and tonic properties in thousands of cases arising from disorders of the blood. It washes the poisons from the system and aids the blood in its work of cleansing and invigorating the body organs, throwing off waste matter, and keeping the body in a normal, healthy condition.

Prove these facts for yourself by taking a bottle of S. S. S. and write to our Medical Department for information about your case. Swift Specific Co., 304 Swift Building, Atlanta, Ga.

Why the Anker-Holth Cream Separator Satisfies the User



Because—

the bowl is absolutely self-balancing. The user of this separator is never at expense to have the bowl balanced. It never needs re balancing.

Because—

the self-oiling features do away with the unsanitary and foul-smelling oil-cups. No oil can escape into either cream or milk in an Anker-Holth Separator.

Because—

every mechanical part is submitted to the most rigid tests and inspection before being assembled, and every separator is run many hours before it leaves the factory.

Because—

it is the only separator where the discs in the bowl point downward, making a perfect drainage of the cream. There can be no loss of cream by inter-mixing with the skimmed milk as exists with other makes of separators.

Hudson & Welch

Bevo is a great favorite in the Army Canteens, where none but pure, soft drinks may be sold. After drill or march, you are sure to see a long line of hot and dusty-throated soldier boys making a bee line for Bevo. They know that there lies complete satisfaction, full refreshment and pure wholesomeness.

At home or abroad—at work or play—between meals or with meals, you will appreciate what we have done for you in making this triumph in soft drinks.

You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, in the navy, at canteens, at mobilization camps and other places where refreshing beverages are sold.
